

**DAILY BATTLES OF
LIFE IMPORTANT**

—Says Dr. James.

METHODIST PASTOR GIVES MEMORIAL DAY ADDRESS.**PAST SPEAKS WISDOM****"Days That Speak" Was Sermon Subject—Lauded the Heroes Who Preserved Freedom.**

"Not all of the battles have been fought in France on a field of carnage, or on the battle fields, but battles, equally as important are fought in everyday life," declared Dr. C. C. James yesterday morning in his Memorial Day sermon. The mother fights for its child, the father fights for his family, and the children fight for their mother and father. If we were to open all of the volumes of experiences we would be amazed at the wonderful reading, of the great vision brought out of experience. I don't believe that any real sacrifice wrought by men goes unrewarded, for God brings reward."

Speaking before a large audience and a delegation of G. A. R.'s and V. F. W.'s Dr. James took as his subject, "Days That Speak." "This is a day of memory that speaks and the multitude of years should speak wisdom," he said. Dr. James spoke of our Memorial Day custom, now observed throughout the world, recalled the heroic deeds of past wars, and drew from them the lessons of wisdom for the present and future. He said in part:

"I've never been able to rejoice in the glory of war, for war means that someone has committed a wrong or some great wrong has been inflicted. We would not charge the responsibility of war to God; it is not an invention of God, but a perversion of man's genius. "They never fail, who die in a great cause and fight for a great principle. I should speak of the principles for which we stand. From the day the Nazarene took the throne, through the battle of Yorktown, and again reaffirmed at the battle of Waterloo, was established the principle of freedom. Our responsibility is not limited by the shores of our country. This type of government which we have established and this principle of freedom has spread to other nations. It is this principle that has overthrown kings and is bringing a new meaning into international life, declaring that there shall be a government only by the consent of those governed."

"We sent millions of men, and nurses to France to fight for the very same cause that the men of '65 fought for and believed in. Without this principle of freedom there could be no Democracy. The American doughboy saved the freedom of the world as it had been preserved by other heroes many times in the past."

"Our soldiers have been champions of liberty; all of our wars have been fought for freedom—hence we have reason to think of them today. Without God we can't have this type of Democracy. These heroes are not dead; their influence lingers over the years since they fell by the wayside. It makes no difference where our dead lie, they are enduring. God knows the principle for which they fought, their loyalty to God and to the nation."

THRACE SITUATION IS STILL TENSE**TURKEY AND GREECE PREPARED TO FIGHT ANY TIME****TURKS ARE MOBILIZED****And Can Fight Upon Hour's Notice—Wait For Official Acceptance Of Lausanne Terms**

Constantinople, May 28—Despite the tentative reparation agreement reached by the Greeks and Turks at Lausanne, both sides are still preparing today for war in Thrace. The situation will remain unchanged until an official announcement is made of acceptance of the Lausanne terms by Athens and Ankara.

Turkey is prepared to begin hostilities in Thrace upon an hour's notice. Preparations have been made under strong difficulties. The cause is the Mudania armistice protocol that no formal mobilization order could be issued in Thrace. Nor could the Turks on the Asiatic side of the straits communicate with those on the European side because the lines of communication passes through Constantinople and were controlled by the Allies.

Mrs. George Aley Dies Saturday Evening**Death Came to Pioneer Resident Three Weeks and One Day After Death of Husband.**

Mrs. George Aley of Burlington Junction died at 7:30 o'clock Saturday evening at her home, just three weeks and one day after the death of her husband, which occurred May 4. She had been ill since Mr. Aley's death. She was 93 years old the twelfth of this month and before her marriage to Mr. Aley, which took place July 4, 1850, at Clinton, Ill., was Talitha Jane Hayes. In 1865 Mr. and Mrs. Aley moved to Monmouth, Ill., where they lived until 1883, when they located on a farm near Quitman, Nodaway County. The family later moved to a farm near Maryville, residing there until 1905, when they moved to Burlington Junction, which had been their home for the last eighteen years.

Shanghai, May 28.—Chinese bandits that are holding fifteen foreigners captives including several Americans as well as a hundred Chinese, have divided themselves into two factions, according to advices from Linchen today. One faction is willing to mediate an agreement for the release of the foreign captives, while the other is so hostile that they fired upon a mediating party coming to confer on terms. Fortunately no one was injured.

WARS FOUGHT FOR PRESERVING IDEALS

—Says Rev. Cooper

BAPTIST MINISTER SPEAKS ON "THE TRUE PATRIOT"**PATRIOT ALWAYS READY****He Is Willing To Live Or Die In Order That Principles Might Live**

"When we stop to measure our greatness, we always find that it is in terms of people and of loyalty to ideals," said the Rev. Joseph A. Cooper in his sermon on "The True Patriot" at the Baptist Church last night.

"It is fitting that we have a day to take note of the things that have made us great as a Nation," he continued, "and it is well too that we take time to remember that there are always, in every crisis, those who are willing to give their lives for these ideals."

"In 1776, it was an ideal of freedom, in 1812, an ideal of equality on the seas, in 1861, an ideal of union, in 1917, an ideal of democracy and peace. Memorial Day, in the light of these facts, brings a remembrance of what our greatness has cost in terms of human lives. It is always a day for humility and renews faith in ideals for which men and women have sacrificed so much."

"A country worthy dying for would seem to be a country worth living for as we are reminded on Memorial occasions. It is also not out of place along with the tributes we pay the soldier dead, to remember that the ideals for which they gave their lives are possible only because in times of peace thousands of men and women like them have preserved those ideals for which they gave their lives."

"The men of 1776 gave their lives for an ideal of liberty, but they were only a few of the many who had been keeping alive that ideal before 1776; so in 1812 and so in 1861. In 1917, 60,000 men gave their lives for the ideal of democracy and peace, but the ideal was there to be fought for because the great rank and file of the American people had kept that ideal alive in times of peace."

"The true patriot, then, is the man or woman so loyal to the great ideals we call American, that either in war or in peace he holds himself ready to preserve by life or death those ideals, and keeps himself fit physically, mentally, morally and spiritually for every service of his country."

Mr. Lee is survived by his widow, two sons, Robert E. Lee, Elmo, and Charles Lee, at home, and one daughter, Mrs. Agnes Smith of Callaway, Neb., who will arrive tonight to attend the funeral. Two brothers, Charles Lee, Elmo, Elder Lee, living in southern Missouri, and one sister, Mrs. Alice Moses, Peculiar, Mo., also survive.

STUDENTS POUR IN FOR SUMMER TERM**AT 3 O'CLOCK 673 ENROLLED, 40 IN LINE****EXPECT 900 BY NIGHT****Today's Enrollment Shows Big Increase Over Last Year—Expect 1200 Total Enrollment**

Maryville is literally "alive" with College students today. Since Saturday noon boys and girls, men and women, and even some old bachelors and old maids, began rolling into Maryville for a ten weeks' strenuous session as students at the State Teachers College. Every train brought students by the carload and a great many came by autos. W. E. Goforth, Burlington agent, said this afternoon that well over four hundred students had already arrived over his route. The Wash trains last night and this morning brought equally as many.

At 3 o'clock this afternoon 673 students had completed enrollment at the registrar's office and a count of noses found forty more standing in line ready to sign up. This will make well over seven hundred enrolled today.

Last year 344 students enrolled the first day of the summer term. At the end of the second day last year a total of 566 had signed up, and the end of the week showed a total of 792. The total enrollment for last summer was 1,059. Indications point to close to 900 by tonight and it is predicted that the total this summer will reach the 1,200 mark.

Classes will begin at 7:30 o'clock in the morning. The rumor had been circulated that tomorrow would be taken up with enrollment and that Wednesday, being Memorial Day, would be a holiday. Consequently many students will not register until Thursday. President Uel W. Lamkin said today that classes would begin as usual tomorrow and that all classes, except those of the last hour in the afternoon, would meet Wednesday. This hour is given off because of the Memorial services downtown and the baseball game at the college.

The main building at the College today was without doubt the busiest place in town following the quietness of a week's vacation. Students were busy making out their schedules, ironing out conflicts of classes, and stopping in between conferences to renew acquaintances. The jitney men and transfer men seemed to take on new life today to handle the student traffic. That the baggage men had been worked hard was evidenced when two were seen this afternoon on West fourth street, sneaking a rest between deliveries of trunks.

H. M. Lee, 64 Years Old, Dies Near Elmo**Had Lived in Nodaway County Since 1884—Funeral at North Grove Church Tomorrow.**

Funeral services will be held at 2 o'clock tomorrow afternoon at the North Grove Church, northwest of Elmo, conducted by the Rev. E. J. Speer, pastor of the Elmo M. E. Church, South. Burial will be in High Prairie cemetery.

Mr. Lee is survived by his widow, two sons, Robert E. Lee, Elmo, and Charles Lee, at home, and one daughter, Mrs. Agnes Smith of Callaway, Neb., who will arrive tonight to attend the funeral. Two brothers, Charles Lee, Elmo, Elder Lee, living in southern Missouri, and one sister, Mrs. Alice Moses, Peculiar, Mo., also survive.

Besides his parents, he is survived by one sister, Winifred, at home.

SPLITS GROWING IN BOTH PARTIES**INTERNATIONAL POLITICS OBSTACLES IN BOTH PARTIES****LEAGUE OF NATIONS UP****Democrats, Under Cover Are Sorely Bothered By It—Republicans Quibble Over Harding Court**

Washington, May 28—Unless the best efforts of peace makers are successful during the months of the drowsy political summer, it seems to be fairly certain, according to observers, that both major parties will slide into the presidential year of 1924 with good-sized splits in their ranks over international politics.

While the Republicans are warring between themselves over the issue of President Harding's international court proposal, the Democrats, no less divided even at this early stage of the game, are asking if the Democratic platform of 1924 will specifically endorse the League of Nations as it did in the platform of 1920. The Republican fight is in the open, the Democratic is under cover and growing in intensity.

Many believe that MacAdoo leaders agreed to "soft pedal" the League of Nations issue, despite the known fact that ex-President Woodrow Wilson will demand that the party completely endorse his league plans. MacAdoo, in a telegram to International News Service today, declined to commit himself either way in the fight between leaguers and anti-leaguers in his party. Senator King predicted that MacAdoo would become a candidate without pledging entry into the league. In response to an inquiry today MacAdoo wired:

"Senator King is a warm friend and I appreciate his high opinion, which is of course, expressing his own view." Most of the politicians are doubtful over the question of the League of Nations endorsement. Many admit privately that they would like for the platform to be silent upon the Paris league, but how to accomplish this is the question and what to do with the "sick man on S street," they shake their heads dolefully. Democrats of the King type, and there are many of them, see a golden opportunity to gain the White House next year. Frankly they do not believe it can be done if they again go before people pledged to put America into the league.

Premier Baldwin Faces New Troubles**New Tory Government Will Face Crisis in Parliament on Indemnity Bill**

London, May 28—Premier Stanley Baldwin was today elected leader of the British Tory party.

London, May 28—A great parliamentary crisis faced the new Tory government of Premier Stanley Baldwin when the house of commons convened today. The argument is over the "bill of indemnity" introduced in parliament to relieve Home Secretary William Clive Bridgeman and his associates from damage penalties incurred in the illegal deportation of Irish sympathizers to Ireland.

Premier Baldwin's position was made more difficult through the publication of an open letter from Austin Chamberlain, main leader of the moderate faction of the Tories, claiming he was not consulted when the government was formed. This indicates that the Tory Moderates would join the Liberals and Laborites, opposing the administration's measure. All party whips were in action today lining them up for the indemnity measure. Despite the opposition leaders of the government said they hoped to pass the bill before Wednesday.

20 KILLED IN RED RUHR RIOTS**VIOLENT FIGHTING BETWEEN COMMUNISTS AND POLICE.****SCORES ARE ARRESTED****Over 700,000 Coal Miners are Striking—French Guns Found Among the Reds.**

Essen, May 28—German Reds at Gelzenkirchen today claimed a general strike of German coal miners throughout the Ruhr.

Berlin, May 28—The grand total of coal miners on strike in the Ruhr and Westphalia districts reached 700,000 this afternoon.

Berlin, May 28—Twenty persons were killed and more than a hundred wounded in week end battles between the German Reds and police in the northern part of the Ruhr, according to information received here this afternoon.

Violent fighting raged until early today when the red forces were defeated by the German police and volunteers. The "self defense" forces sent word that they were in control in the districts about Gelzenkirchen and Bochum, which were the scenes of the worst disorders.

Scores of Reds were arrested. French guns were reported to have been in the possession of the Communists. Advances from Dortmund at noon today said that city and Bochum were quiet. Gelzenkirchen has become the center of the great strike movement. It is estimated that more than a half million German workers in the Ruhr are idle.

Aliens "Bootlegged" Into U. S. Charged**Secretary Of Labor Davis Acquaints Harding With Bootlegging Of Aliens and Liquor.**

Washington, May 28—The "bootlegging" of aliens into the United States by way of land and sea in violation of the immigration laws has reached a stage of a "disgraceful scandal" Secretary of Labor, James Davis told President Harding at a White House conference today.

A series of arrests in the government's drive on the sale of liquor has begun. A number of warrants have been issued for leaders of the gang in New York, Philadelphia and Washington. Prohibition officials carefully guarded the identity of persons suspected, but a number of warrants will be issued soon, it was learned today.

Bar All Weapons, Plea of Dawson

Too Many Guns Cause Of Crime
Maryville Jurist Tells Law Graduates

"Live up to the tenets of your profession, carefully follow its ethics and no one shall say you nay," was the advice the 1923 graduates of the St. Joseph Law School received from Judge John M. Dawson of Maryville, who delivered the main address at commencement exercises held at the Elks club Saturday night in St. Joseph. Four graduates received diplomas. "Nothing is impossible to the minds of youth today," Judge Dawson continued. "The law is a noble profession. No other class has contributed more to the upbuilding of the country's government."

Prohibition of the manufacture of revolvers except under government supervision was advocated by Judge Dawson as the most effective method of checking crime today, which, he said, is a menace to the country. "Stop making weapons; disarm all known gun carriers and criminals and in a few years you will do away with 90 percent of the country's crime," he said.

Demand Increases for Motor Transportation

Detroit, Mich., May 28—Motorization of delivery and hauling systems in the cities and through agricultural sections where improved highways have greatly facilitated transportation continues to increase at a rapid pace.

One-ton trucks still lead in popularity by a wide margin.

This is strikingly shown in the sales of Ford trucks, the demand for which has more than doubled the sales of a year ago.

During the first four months of this year, the Ford Motor Co. delivered at retail in the United States a total of 59,978 trucks, 31,682 more than were sold during the same period last year.

Yehle Dry Goods Co.

MARYVILLE'S REAL CITY STORE

Maryville's Greatest Merchandising Establishment

For nearly a third of a century the Yehle Dry Goods Company has been giving to the people of this section of the state a service in merchandising and a satisfaction in shopping until this is now the largest and most completely equipped store in this section of the state. What has been done in the years that are gone is to be more completely performed in the years to come. Our large buying organization, our great volume of business and our intimate acquaintance with the needs of the people in our trading territory make it possible for us to offer the best of merchandise at the lowest price.

It has been the policy of this store during all the years of its existence to deal fairly and honestly with its patrons; to keep always in mind that every offer of bargains must be even better in the store than they appear in the advertisement; that every customer must be given exactly the same service that every other customer receives. And it is this policy that has made it possible for this store to expand and grow to its present superb proportions.

Service in Merchandise

Service in merchandise is the first objective of the Yehle Dry Goods Company—service in practical usefulness, durability and unusual quality; service in beauty of design, color, finish and style; service in satisfaction from every standpoint. Service founded on the belief in the responsibility of the merchant to his customers; upon the knowledge attained through experience that a community's greatest confidence and patronage are given the store which provides merchandise of the highest quality.

Store Service

Our store is arranged in a modern, up-to-date manner in order to give our customers a better service. We have twenty-six complete departments with salespeople in charge who have been especially trained for their particular department. Modern equipment has been installed throughout the store, with the one idea in mind—a better service to our customers.

This is your store and your service—use it.

G. O. P. COMMITTEE OPPOSE HARDING

HIS WORLD COURT PLAN IS AS-
SAILED

RHINE PAYMENT ASKED

Believed To Be First Time In History
Of Country That Committee Has
Taken Opposing Stand

Washington, May 28—New evidence that officials at the Washington headquarters of the Republican National Committee are using their position and authority to oppose President Harding's proposal for American cooperation in the International Court is seen by many in the latest statement issued from the Committee on the subject of payments due this country for the maintenance of the army on the Rhine. In the belief of outsiders this is the only explanation of the National Committee's intrusion into a delicate diplomatic situation.

The momentary halt in the negotiations between the United States and Allies, it is pointed out, served the officials of the Republican headquarters as an excuse and an occasion for uttering a warning to President Harding against persistence in his advocacy of the International Court. The harsh and unbecoming language of the statement provoked comment and wonder, since this is believed to be the first time in the history of the country that officials of a political committee have undertaken to em-

barass a President or a Secretary of State at a critical juncture in diplomatic exchanges—especially when all were of the same party.

At the request of the State Department correspondents and editors of leading American newspapers had dealt with the incident in the most circumspect way. There was no criticism of the Allies and the accounts of the "hitch" published by the press were couched in the most careful and moderate terms. The officials of Republican headquarters are now blamed for having made all these precautions futile.

The Republican statement declared that "the whole matter" of the payments for the American army on the Rhine "is a crooked deal" involving "repudiation of an agreement between this nation and European powers;" is "typical of the attitude of England and European powers toward this country," and is evidence, in the judgment of these Republican critics, of an intention on the part of America's associates in the World War "to 'hilk' the United States out of this money by hook or crook."

Having alleged against the several principal European governments these dishonest designs and practices, the officials of Republican headquarters proceed to what, it is held, was their real purpose—to serve notice on the President of the United States that he must drop his advocacy of the International Court. The device of giving the European powers a bad name, it is thought was to create the impression that President Harding proposes to take the United States into evil company.

All charges made by the Republican officials against the people of Europe are then said in the statement to confirm "what has long been known by those familiar with the attitude of European powers toward

America, namely, if this country goes into any sort of league with European powers they will immediately take advantage of it to the injury of and the expense of the United States." The phrase "any sort of league" is considered by analysts of the statement to comprehend admission to the International Court.

The boldness of this interference of a partisan political committee with the conduct of the foreign affairs of the United States is regarded as measuring the strength which the opponents of President Harding's proposal have or think they have. That officials of a political party of which the President is titular head should not only oppose his recommendations but interpose on the official business of the Government to discredit and defeat his international policies is an offense which onlookers regard as deserving quick and stern rebuke. They are waiting to see whether Mr. Harding will vindicate his authority either as President of the United States or as head of the Republican party or both.

Five Hundred Poppies Sold Here Saturday

Supply Is Exhausted In Three Hours
—No More Will Be Sold Here
This Year

Five hundred poppies were sold by the Ladies Auxiliary of the Seth Ray David Post, in three hours Saturday. This exhausts the supply which was ordered and no more poppies will be sold this year.

For the past several years, a "Poppy Day" has been observed, under the auspices of the Veterans of Foreign Wars and other war organizations. Poppies are sold on the streets for 10 cents apiece and the proceeds go to the aid of the disabled war veterans.

For the past two years, sales in Maryville did not justify a larger order than 500 for this year. However, this amount was disposed of quickly, although it was intended to continue the sales today and tomorrow. But

the poppies are ordered from New York and it is impossible to obtain an additional quantity this year.

COPPER-CLAD RANGE

"Oh—you beauty." That's what comes to your mind every time you go in the kitchen and see the Copper-Clad Range. It is an inspiration because the finest known example of the artificers' art in range making. It is a picture because so pleasing.

This Set of Elegant Aluminum Ware Free!

"Free means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the 'Copper-Clad Crank' is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

FREE TO EVERY COPPERCLAD BUYER DURING THIS SALE. COME—SEE THE ASBESTOS SWEAT.

SEE WHY COPPER-CLAD RANGES DO NOT RUST OUT

A section of a range body is heated and there on the iron body is the sweat from the asbestos. Right before your eyes you see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word—you see—you know—absolutely, positively.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See the water sizzle and boil away on the 3-ply sample while it stands

on the Copper-Clad sample. See how the heat is wasted by radiation on the three-wall construction and how it is saved by the four-wall thermos construction.

Suppose that you save but one shovel of coal at each meal; in a year's time you would have over a thousand shovels of coal. Pay? Of course, it will pay; and you owe it to yourself to see these two great demonstrations and know for your own self what range lasts longest—is most economical—cooks best—and looks best.

Copper-Clad means that Pure Sheet Copper is placed BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

Levee Breaks; 1,000 Homeless in Oklahoma

Oklahoma City, May 28—More than 1000 persons were made homeless today when the Walnut Grove levee went out and sent 10 feet of water into the streets of the suburb. When the shots were fired, warning the inhabitants of the approaching danger, the families fled to higher ground. The cloud burst caused the water in the levee to pile high and the safety bank gave way beneath the pressure of the current. No lives were lost, as far as can be ascertained this afternoon. No further rise is predicted by the weather office. Water is fifteen feet deep in the lower part of the city.

E. P. Brown of Nodaway County had a shipment of hogs on the market at South St. Joseph Saturday.

To Offer \$4,000 Cash Prizes in Ag. Exhibits

County Displays Will Compete for \$2,000 in Awards At State Fair

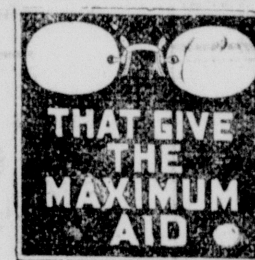

With more than \$4,000 cash premiums offered in the agricultural department of the 1923 Missouri State Fair, to be held in Sedalia August 18 to 25, the prospects have moved John F. Case, president of the State Board of Agriculture, to predict that "with a fair season for Missouri agriculture, we will have an exhibit at Sedalia in August that will be a state fair by itself."

The first prize of \$100 in the cotton exhibit has already drawn enough entries to assure the finest display ever put on in Missouri. With more than \$1,000 to be awarded to prize winning corn, the growers of the state are planning to send their best to the fair. Among the exhibits will be the ear grown by Alva Mann of Geary County which won a world's championship at the International Grain Show in 1922.

Two thousand dollars will be awarded in the county display class, a first prize of \$500 and fifteen additional prizes, and already Andrew, Chariton, Pettis, Scott and Cedar counties have lined up to represent their various sections of the state. Awards will be based mainly on the manner in which the display shows the agricultural resources of its county, so the good soil and diversity of crops of certain parts of the state will give them no advantage over the poorer counties.

The Southeast Missouri Agricultural Development Bureau is offering aid and endorsement for the county displays that will go to the fair from its district. This year will be the first in which Southeast Missouri has been represented in the county class.

Roy Kirkpatrick of Columbia is superintendent of the agricultural department; and Sam Jordan, John Shelton and W. R. Hechler will act as judges.
